Dear Resident/Business Owner:

This is an important notice from **National Grid** regarding work on our gas infrastructure in your neighborhood in the **Mystic St area, in Arlington; specifically, from the intersection of Mystic St. and Summer St. to the intersection of Mystic St. and Chestnut St. MA.** The work is being driven by the town's road reclamation plan and overall infrastructure improvement plan. It is also part of our continued efforts to maintain and operate safe and reliable natural gas service.

The work is scheduled to start the week of **April 22nd, 2013** with an approximate end date during the second of week of **November, 2013.** Work will take place from **9:00 AM to 3:00 PM** and will be sensitive to peak traffic hours. If warranted, additional work outside this schedule may be needed at the discretion of the Department of Public Works and the Public Safety Officer for Arlington.

Customers can anticipate parking restrictions in front of their properties while we perform certain portions of the work. Our contractor and various police detail will coordinate the daily parking restrictions, and the flow of traffic, in the least intrusive fashion allowed by the job while maintaining a safe work zone. We anticipate having the road and pedestrian ways opened at all times during this project. Arlington Police and a construction foreman with appropriate identification will be on site to address your needs throughout the duration of the construction project.

We value your continued cooperation and understanding and apologize in advance for any inconvenience. If you have any questions about the project, please call **Victor Santana**, from Community & Customer Management, at **(781) 907-2205.** For general inquiries, National Grid **Customer Service** can be reached 24/7 at **1-800-233-5325.**

Sincerely,

National Grid
